JEROS World Wide

Smarter Thinking - Smarter Solutions

JEROS A/S AN INTERNATIONAL COMPANY

with more than 40 years' experience in the development, production, and sales of tray cleaners, utensil washers, and crate washers for retail and the food industry.

JEROS A/S was founded in 1963 in Odense/Denmark where the production of tray cleaning machines primarily for the Danish market began.

During the 70's a network of dealers was established throughout Europe. Today, JEROS A/S is not only the oldest manufacturer of tray cleaners for trays with 2 borders, JEROS is also the present market leader in Europe.

Since 1972 JEROS A/S has been specializing in the production of utensil washers too. The JEROS utensil washers are available in various models and sizes for branches like bakeries, confectioners, butchers, catering, fast-food, fish and food industry, among others. The JEROS utensil washers are exported World Wide. JEROS offer a broad product range including dish washers, utensil washers, conveyor tunnel washers, and crate washers all constructed in modules making them very suitable for customization.

Today, JEROS A/S is a modern, solution-orientated manufacturing company with a high degree of flexibility thus being well-prepared for future demands in the production of qualitative and functional solutions. JEROS relies on a team of innovative employees who with their individual skills and know-how contribute to ensure future development.

During the last 40 years a wide and strong network of experienced dealers and service organizations has been established World Wide - an expansion of the market which still today is under constant development.

JEROS is certified by STEINS Laboratorium and TÜV/CE and complies with the HACCP regulations.
